CASE STUDY - EBB HOTEL INTERNAL

We worked with the building owner and Sydney based designers to realise the complete aesthetic accurately. Laser cut and powder coated metal wayfinding text, plus dimensional entrance signage and more. The result is subtle yet stand-out - very nice!

CASE STUDY - MAERSK INTERNAL WAYFINDING

The client wanted a solid wayfinding design, based on Copenhagen head office style. We designed them to match, cut and folded them from 3mm aluminium sheet, custom powdercoated them to corporate Maersk blue and applied vinyl decals. Adhered with VHB tape, these are smart, simple and clear for the user.
